Work Experience

Senior Technical Support — Elm

2025 – Present · Riyadh

- Created training sessions to help team members quickly adopt and onboard with new technologies, like **redis**, **tomcat**, **RabbitMQ**, and more
- Built **n8n**-powered Jira automations that sped up ticket handling and improved SLA compliance.

L2 Application Support — Tabadul

2024 – 2025 · Riyadh

- Developed & Implemented a **php** web application that streamlined log searching, file transfers, and data visualization, significantly accelerating the support team's workflow.
- Reduced web application loading time from 16 seconds to 0.4 seconds by optimizing code and connection methods.

Application Support — Tabadul

2022 – 2024 · Riyadh

- Designed, developed, and managed a web application that serves as a portal for employees to access resources and information.
- Provided user support by responding to inquiries and resolving issues to enhance user satisfaction.

Assistant Manager — Alsabt Center

2016 - 2022 · Riyadh

- Part-time job during high school and university.
- Contributed to regulatory compliance, quality assurance, and import operations management.
- Developed scripts to automate the creation and population of Excel sheets required for regulatory compliance purposes.
